

PEACE OF MIND PLEDGE

On behalf of my business and my employees, and in the interest of protecting the safety and well being of all Walla Walla visitors and residents, I pledge to:

Prioritize visitor health and safety, even if doing so comes at an additional cost to my business.

Develop and implement health and safety policies, procedures, and protocols specific to my business, and to implement and enforce them in an effort to safeguard visitors, as well as my employees, myself, and the community.

Follow, meet, and exceed—where possible or appropriate—the guidelines issued by local, state, or federal government.

Adopt industry best practices such as those recommended by the CDC, American Hotel & Lodging Association, the National Restaurant Association, the Food & Drug Administration, and others.

Implement and enforce social and physical distancing policies, minimize person-to-person contact, and increase transparency throughout the visitor journey.

Practice social and physical distancing even at the reduction of number of customers in my business at any date or time.

Provide visitors with the safe, healthy, and sanitary experience they expect and deserve.

Provide my employees with access to proper safety tools such as personal protective equipment and hand sanitizer.
